RE: XEROX 700 & PAUL ATTWOOD

To all potential buyers/ leasers

I have recently purchased the Xerox 700 digital press from Paul Attwood at Xerox, and I must say that it was a great purchase. Paul and his team were professional and up front with me in the dealings for this equipment. I have seen steady growth and increased productivity from the 700 and I am very pleased with how easy it was to learn and get good results from the 700.

Paul helped me with all of my questions and was very willing to go above and beyond what was necessary to achieve the sale. This is the 3rd piece of equipment that I have leased from Paul and his team and every time has been a pleasure.

When I had problems, Paul's response time and answers were always second to none. The other great thing when dealing with Xerox is the service is the best I have ever seen. As with all equipment especially when new, their can be minor set backs at the start, but with Paul, and Brian Harrington (my service rep) they quickly help and resolve all my issues.

I willing write this letter of recommendation to all that are interested in buying any colour copiers or digital press's from Paul Attwood, I am sure that the purchase or lease of your new equipment will go as well as all my dealings with Paul have been.

Sincerely
Ian Beck
