To whom it may concern;

From 2003 to early 2006 Goalline Surveys Inc leased a Canon 3220 and a 3200 color copier / printers. During this time we experienced many quality and reliability issues with these products. These issues put a significant strain on both our business and our Customers. We tried to work through these problems with Canon but could not resolve them to our satisfaction. This forced us to find a new partner.

We have recently bought out the 2 Canon leases and replaced them with 2 Xerox 240's We are extremely satisfied with the performance, quality and reliability of these products.

Both Xerox and Advanced Office Solutions are a pleasure to deal with. They are both very accommodating and operate with a high degree of professionalism.

Our business is now running much smoother and we are exceeding our customer's expectations. Due to this we are in a great position to experience significant business growth in the immediate future.

Having experienced first hand both Canon and Xerox, I would highly recommend the Xerox solution if you want a productive, reliable and worry free decision.

Please do not hesitate to call if you would like to discuss my personal experience in greater detail, I can be reached at 905 639-8287

Yours truly
