Over the years, Advanced Office Solutions (AOS) have provided excellent service to our office; accommodating whatever printing/copying needs we have had.

Our Workplace is very small, but AOS's sales team always manages to provide us with a Xerox product that will not only fit out space, but handle our output volume as well. Their products are priced well and easy to use.

We are also extremely pleased with the quality of service their IT staff provides. We rely on dependable service from suppliers such as these to keep us up and running and certainly receive such with their prompt responsiveness and their professional conduct; they are always such a pleasure

We would most defiantly recommend AOS for their friendly, unvarying service; and, of course for their exceptional products.

Yours Truly,

Sandra Evers
