To whom it may concern;

We have been happy Xerox customers for the past ten years here at Atlas Hydraulics. I am responsible for our IT area which includes our Xerox equipment. When I think about our Xerox equipment I don't always think about the quality and cost which are exceptional but I think about the peace of mind it gives me. We have very little need for service but when we do I know I just have to look up the serial number and telephone number on the screen and within an hour I will have a technician with a scheduled time for repair and they always get the job done. I wish all my hardware maintenance was this easy and this dependable. We don't have a lot of contact with Paul Attwood and his team at AOS who are our Xerox reps but they are always there for us when we need them and in a tough competitive business they keep winning us over.

Frank Beattie
Manager IT
Atlas Hydraulics Inc.
