Dear Kevin:

Our new Xerox Copy Centre 255 is an amazing machine! The copy is so crisp and clear and the features of "Job Build" and "Booklet Creation" have saved me so much time and effort. We make hundreds of copies each week here at the church and every copy looks as good as the original.

The other feature that I really like is the deep paper trays that allow me to put several packages of paper in at a time - great idea!

Like any copier, paper jams occur, but on this machine they are easy to clear because the fuser and drum can be so easily pulled out.

I have worked here in the church office for over thirty years and have gone from Gestetner to many different photocopiers and believe me when I say this is the best yet!

Sincerely,

Gerry Hopkins
Secretary
